The following points were discussed and decisions arrived at:

1. Change of course code Numbers.

The members of the Board of Studies (BOS) agreed to allot Course Code Number AU Agron 124 to Practical Crop Production (PCP) course which was introduced in the course catalogue during the Second Semester of Academic Year 2014-15. Accordingly, the changes in the Course Code Numbers in all the courses of Agronomy discipline were made and approved. The change is recommended to the Academic Council for approval.

2. Approval of course contents of Experiential Learning.

The course contents of Experiential Learning (elective courses) to be allotted in 8th semester were framed, finalized and Course Code Numbers were allotted. The same is recommended to the Academic Council for approval.

3. Shifting of Experiential Learning from 8th to 7th semester & vice-versa and approval of the change of course code numbers accordingly.

The following decisions were taken:

- The Board of Studies (BOS) finalized the proposal of shifting Experiential Learning courses from 7th semester to 8th semester keeping in view the accommodation problems which the students may face during 7th semester and sufficient time which a student requires for competing in various competitive examinations towards the end of degree course.
- It was felt by the Board that the abbreviation given in the code is too lengthy, which should be shortened. Accordingly the abbreviations were shortened. The relevant changes in the Course Codes and Numbers have been made.
- It was further felt by the Board that the students should have wider experience not only of the elective but also that of the allied elective. Accordingly it was recommended that in place of offering all the 20 Cr. Hrs from one single elective, he should offer 12-14 Cr. Hrs. of major elective and remaining 6-8 Cr. Hrs from the allied electives.

The proposals are recommended to the Academic Council for approval.

4. Starting of M.Sc. Agriculture classes.

The Board of Studies (BOS) agreed to the proposal to start M.Sc. programmes in three disciplines viz. Agronomy, Soil Science and Plant Pathology. However, the BOS desired that before starting any PG programme the following minimum requirements are required to be met.

- There should be at least minimum of three faculty members in each programme.
- Number of seats should be less than five in each field of specialization.

➤ The stability of the faculty members must be ensured so as to avoid inconvenience among the students.

The proposal is recommended to be placed before the Academic Council for approval.

Use your research perception and move ahead the research programmes of the University in the right direction. Being founder Deans and H.O.Ds of your respective Faculties and Departments, you are more responsible for laying the foundation of research in the University. Please create "**Innovative Clubs**" in your Faculties for taking lead in research by using the young minds of your faculty members. The Deans are not only the guides in the hierarchy of a Faculty but the kingpin of the Faculty to make conscious and determined efforts to accelerate the research programmes in his/her Faculty as well as create opportunities for the young faculty to take lead in research. Hence, the role and contribution of a Dean in a Faculty is matchless and is of paramount importance, therefore, please take keen interest in initiating Research and Research Projects in your respective Faculties. In my considered view, the standing of a University in inter-University scenario is assessed and evaluated on the basis of the Research and Research projects a University carried out by it. Let us make considered and concerted efforts to first make our place in the Universities of the State and thereafter March ahead to make our standing in the National and Inter-National Universities. Further, the Hon'ble Vice-Chancellor stressed the need of Seminar, Conferences and workshops in the University for the development of faculty and students. Every Faculty to prepare the schedule of Seminars, Conferences and workshop and submit the same to the Hon'ble Vice-Chancellor by 15th March, 2015.

- (f) **University Vision Document.** The Hon'ble Vice -Chancellor stressed that the Vision Document of a University is the road map which marks the direction and final destination of the University targets and future achievements. Hence, it is needless to say that our University must have its vision document. The Hon'ble Vice-Chancellor directed all the Deans present in the meeting to write the vision document of their respective Faculties and submit the same by 30th April, 2015 so that the University vision document can be prepared.
- (g) **Placements.** The Hon'ble Vice -Chancellor directed all the present in the meeting to introduce such courses in the syllabi of their respective Faculties which may help in the placements of the students. The list of new courses which are required to be introduced as minor subject in the various Faculties should be submitted to the Hon'ble Vice-Chancellor by 30th April, 2015.
- (h) **Extension of Knowledge to Society.** The Hon'ble Vice -Chancellor directed all the members present in the meeting that the University should make endeavour for the extension of knowledge to the society. The Faculty of Ayurveda and Agriculture can do wonders in this respect so Dean Ayurveda & Agriculture should take steps to help the people living in the Chachyot Tehsil in specific and Mandi Distt in general. Dean Ayurveda is organizing monthly medical campus at present but it is desired able that he should get the medical survey of Chachyot Tehsil done and make people aware about their health problems as well as educate the people about the facilities available at the Abhilashi Hospital. Further, Dean Agriculture should afford Agriculture gaudiness to the farmer of the area.
- (i) **Leadership.** The Hon'ble Vice -Chancellor desired that all the Deans to lead their Faculties from the front. They should take lead in conducting research, workshops, Seminars conferences and initiating projects.

He further, stressed that the environment in the University should be eco-friendly, study-friendly, knowledge-friendly, research-friendly and an appropriate importance is given for the extra-curricular activities in the syllabi of the various Faculties so that the all round personality development of the students can be ensured and achieved.
