Report on Professional Ethics Program for students, teachers and non teaching staffs

Abhilashi University is a learning institution founded on the principles of ethics and value-based education. Academic freedom, intellectual integrity, and the fair and respectful treatment of others are all ethical principles that faculty and students must enshrine. The concept of academic freedom is central to the academic enterprise. From a student's perspective, the basic pillars of ethical practices such as independence, prevention of harm to others, extending a helping hand to all, justice, and fidelity are constantly discussed and etched in the minds of our students.

The basic cultures instilled on campus are universal brotherhood, self-confidence development, a broad and open mind to help the poor and needy, empathy for the oppressed and ready-to-help attitudes.

Professional ethics is an inevitable standard that should be deeply ingrained in the minds of young students in order to transform them from the heavily contaminated commercial environment to which they are exposed.

We celebrate **Abhikriti Youth festival** and conduct **blood donation camps, Yoga Day time to time**.

Student orientation Programs on Professional Ethics and Human Values

- Every year during the start of Academic session in the Month of July Induction programs are conducted for under graduate and post graduate students. During the induction programs academic professionals from in different fields will address the students about the various ethics that a student should follow during the course of study.
- An Exclusive program on professional ethics and Human values was conducted annually.
- The Abhilashi University offers a course on Research and Publication Ethics in Ph. D. Course and “Human values and Professional Ethics” in management to all the Ph. D. students and management students

To promote harmony and a friendly atmosphere on campus, we organize a variety of cultural programmes that involve the vast majority of students, allowing them to gain a better understanding of the importance of ethical practices such as not taking advantage of others' distress.

Women's Day was observed as a mark of respect for our female students, and achievers were recognized in order to encourage our dynamic female students.

The commercial content of education model to the next generation as we produce future managers, entrepreneurs, administrators, and leaders of the nation is to make wealth through honest and lawful means and never resort to unethical practices at the expense of others.

Our students have effectively participated in COVID 19 awareness camps and our Logistics and supply chain management students and NSS volunteers had reached out to the needy people and rendered assistance during complete lock down as a best ethical practice from university students.

Faculty commitment towards **Professional ethical** practices is being meticulously followed by our university.

Faculty development program is conducted in the month of July to all the faculty members in the various titles of pedagogy. During the course of the program the faculty will be enriched with various ethical practices they should adopt.

Faculty Development Program

<http://abhilashiuniversity.ac.in/Static/V1/Files/Documents/637801927207026836.pdf>

Institutional Animal Ethics Committee (IAEC)

The University constitutes Institutional Animal Ethics Committee (IAEC). The Committee conducts IAEC Meetings on periodical intervals to supervise the animal ethics.

Research Ethics

The research scholars undertake a Research methodology course work exam in fourth paper. They exclusively study about the ethics in research to be followed

Plagiarism is strictly prohibited in all academic materials created by our faculty members, and we ensure that only original contributions from our faculty and research scholars are sent to journals for publication. This determines the quality and originality of faculty member's academic contributions.

Mechanism for detecting plagiarism Institute recommended the need URKUND is a completely automated system against plagiarism (Anti-plagiarism software) software that can be used for checking plagiarism. This tool has been in effective use during the past 3 years. The quantity and quality of research articles have also improved substantially. The university also ensured that all research articles were checked for plagiarism before submitting the same to journals. The faculty and students send their article to the school and department URKUND representatives for checking their similarity index. Corrections were made as per the report and papers were submitted. Similar to research articles, all the Ph.D. thesis were checked for plagiarism and the report was endorsed by the department Coordinator before submission. This ensures that the plagiarism is less than 10 % before the thesis enters into the Shodhganga database. Supporting document is attached in the last of this report.

Ethics Committee

Harassment- the most frequently discussed form of harassment is sexual harassment. University has created a strong committee with members as per legal provisions and we ensure that women are completely safe and breathe fresh air without any pollution of Harassment.

Nondiscrimination and fair evaluation- In their work, members of the academic community should not engage in discrimination "based on age, gender, race, ethnicity, national origin, religion, sexual orientation, disability, socioeconomic status, or any basis proscribed by law". Periodic FDP and eminent lectures were organized.

Non-teaching members must adhere to all ethical principles of confidentiality and student information security. They are expected to be the custodians of all confidential data of our students, and the university provides training for them to gain access to various software programmes as well as periodic orientation to ensure that all ethical practices are followed.

Professional Ethical practices by management need to be mentioned with gratitude at this juncture. Management has proved beyond any law or expectation. Our Philanthropic and generous minded **chairman Dr. R. K. Abhilashi** an educational entrepreneur announced free education for students, children of Covid 19 warriors like sanitary workers, police personnel, and medical services. This was widely appreciated and acclaimed from various quarters at national Level. Staff welfare, financial protection, better academic environment, medical facilities, transport facilities, research funding encouragement for international conference participations are all part of professional ethics from management.

The Code of ethics for research

The concept of "Research" means to find out the solutions or the possible outcomes again and again. Research can be defined as the process of investigation which includes collection, documentation, analysis and interpretation of data/information with the use of appropriate scientific methodologies. A good research includes a systematic approach to capture accurate data. To achieve the goal of a good research, researchers need to practice ethics and a code of conduct while making observations or drawing conclusions.

Ethics in research includes set of standards, values and institutional arrangements to constituting and regulate research activities. Honesty in research, responsibility to colleagues, other people, animals, the environment and society in the widest sense should be mainly focused during conducting research. Keeping in view the importance of research in welfare of society and environment, every institution has some basic rules and regulations as well as some ethical guidelines to carry out standard research.

Abhilashi University established a code of ethics for conducting quality research mainly focused on scientific integrity, truthfulness, and accountability. The codes of ethics established by our university are as:

1. The research should be exploratory, descriptive and explanatory.
2. There should be honesty, objectivity, carefulness, openness, confidentiality in conducting research.
3. The research information provided by the researchers must be accurate and correct and should be compatible with sustainable development.
4. Researchers must protect the privacy of their research subjects.
5. Researchers must comply with national and international rules and regulations established to safeguard ethical and safety interests. Due care and respect to animal welfare should be kept in mind during preparing and conducting experiment involving animals.
6. Special care should be taken by researchers during publication of research. The manuscripts prepared by researchers should be free from any type of plagiarism. In addition, researchers must take responsible publication, responsible mentoring, social responsibility, competence, legality, and human subjects protection.
7. Researchers must respect the contributions of other researchers and observe standards of authorship and cooperation.
8. Research institutions and the individual researcher must ensure openness about possible conflicts of interest.
9. Research institutions and researchers are both responsible for disseminating research findings.
10. Research institutions must have independent mechanisms that can support employees in whistle blowing situations.

RESEARCH AND PUBLICATION ETHICS

Name of Course	Research and Publication Ethics	
Course Code	AURPE - 04	
Total Credits	04	
Examination	External	Internal
Maximum Marks	60	40

Theory & Practice

Unit-I Philosophy and Ethics

Introduction to philosophy: Definition, nature and scope, concept, branches
Ethics: definition, moral philosophy, nature of moral judgments and reactions. Publication Misconduct: Group discussions: subject specific ethical issues, FFP, authorship, conflicts of interest, complaints and appeals: example and fraud from India and abroad

Unit-II Scientific misconduct

Ethics with respect to science and research; Intellectual honesty and research integrity; scientific misconducts: falsification, fabrication, and plagiarism (FFP); redundant publications: duplicate and overlapping publications, salami slicing; selective reporting and misrepresentation of data. Software tools: Use of plagiarism software like Turnitin, Urkund, and other open access software tools.

Unit-III Publication Ethics

Definition, introduction and importance, Best practices/ standards setting initiatives and guidelines: COPE, WAME, etc. Conflicts of interest; publication misconduct: definition, concept, problems that lead to unethical behavior and vice versa, types; violation of publication ethics, authorship and contributorship; identification of publication misconduct, complaints and appeals; Predatory publishers and journals. Databases and Research Metrics: Databases: Indexing databases, Citation databases, web of science, Scopus, etc.

Unit-IV Open access publications

Open access publications and initiatives; SHERPA/RoMEO online resources to check to check publisher copyright & self-archiving Policies; Software tool to identify predatory publications developed by SPPU; Journal finder/ journal suggestion tools viz. UGC care listed journal, Elsevier Suggested journal finder, Springer journal suggester, Impact factor of journal as per journal citation report, SNIP, SJR, IPP, Cite Score; Metrics: h-Index, g-Index, i-10 index, Publons, Google Scholar etc.

CONTRACTUAL AGREEMENT

This contractual agreement is entered on 7th Oct 2020 at Chail Chowk.

BY AND BETWEEN

Enviro Engineers, CBWTF Sandli Solan (H.P.) here in after, called as 1st party duly authorized by the H.P. State Pollution Control Board, Paryavaran Bhawan, New Shimla 171009 for the compliance of Bio-Medical Waste (Management & handling) Rules, 2016 through Mr. H. R. Thakur, Proprietor, Enviro Engineers, who has been duly authorized to execute and sign this agreement for and on behalf of Enviro Engineers, on the one part.

AND

Abhilashi University Chailchowk, Tehsil-Chachyot, District-Mandi (H.P.) 175028 hereinafter as 2nd Party, on the other part and is also referred to as **Health Care Unit**.

Now the following terms of reference have been agreed upon by both the parties.

Responsibilities of Health Care Unit

- ❖ Will take all steps to ensure that the waste is handled without adverse effect to human health and environment before collection by taking the steps to segregate the waste at the point of generation in accordance with schedule 1 & 2 of Bio-Medical Waste (Management & handling) Rule, 2016 in compliance with the standard prescribed.
- ❖ Will maintain the record of Bio-Medical Waste Generated/Handed over.
- ❖ Will fix a Bio-Medical Waste lifting point (collection and point) and will also authorize a person, whose name designation will be submitted to 1st Party in writing to interact with Enviro Engineers/collection van staff and will sign the Enviro Engineers daily report chart as acknowledgement of the visit/BMW handed over.
- ❖ Will intimate the absentee, if any, very next day to Enviro Engineers office.
- ❖ Will destroy, disinfect sharps and mutilate them in puncture proof containers before collection.
- ❖ Will provide color coded bags for BMW collection to avoid any violation.
- ❖ Will renew their contractual agreement one month before the date of expiry.
- ❖ Will provide BMW by weight/electronic weighing machine.

Responsibilities of Enviro Engineers

- ❖ Will receive, collect and transport the BMW handed over by Health Care Unit in color coded bags.
- ❖ Will hand over the incinerable waste to Bio Medical Waste Treatment plant site at Sandli for final disposal.
- ❖ Will submit the monthly report of the waste collected/continuation of the services of related **Health Care Unit** to the prescribed authority and also submit the annual report to the prescribed authority.

For

Enviro Engineers

Adm

GENERAL TERMS AND CONDITIONS

- ❖ The terms of this agreement shall be from 1st April 2020 to 31st March 2025.
 - ❖ Registration No. of this agreement is E/5753/20-21 on dated 7th Oct 2020.
 - ❖ Enviro Engineers will charge minimum Rs.10450/Month up to 150Kgs waste for handling, collection, transportation & disposal of Bio Medical Waste. Rs.50/kg will be charged for extra waste.
 - ❖ Enviro-Engineers will transport the BMW on alternative days. If vehicle is required on daily basis Rs 25/km will have to be borne by the second party as a transportation & Rs 1000/- as a handling charges (for Covid-19 waste/extra vehicle)
 - ❖ COVID-19 waste will be accepted in triple layer bag and only after sanitization.
 - ❖ 10% will be increased per year automatically.
 - ❖ These service charges are initially up to 31st March 2021 which can be revised by mutual understanding, if at any stage, Govt. of HP or any other competent agency approves the charges, it will come into force with immediate effect.
 - ❖ Taxes such as GST or any tax as and when applicable shall be to the waste generator's account.
 - ❖ Enviro-Engineers will transport the Bio Medical Waste (Management & handling) Rule, 2016 and can discontinue the services of the waste generator in the event the waste generator is at default in responsibilities/payments with seven days prior notice.
 - ❖ Bio Medical Waste should be segregated, leveled, tagged and tied in proper color & bar coded bags i.e.:-
 - Yellow Bags: (a) Human Anatomical (b) Human Anatomical Waste (c) Soiled waste: Items contaminated with blood, body fluids like dressings, plasters casts, cotton swabs and bags containing residual or discarded blood and blood components (d) Expired or Discarded Medicines/ Pharmaceutical waste like antibiotics, cytotoxic drugs including all items contaminated with cytotoxic drugs along with glass or plastic ampoules, vials etc.
