**“ We should indulge in God  
remembrance every moment. ”**

We should always remember the formless God. We must never forget the presence of formless God. It is generally said that God remembrance is not mere recitation. Yes, that's true and we don't have to indulge in recitation. But we must feel his presence every moment. We are not bound by any particular time or place for God remembrance. But like when our mobile phones do not get any signals, we use land line phones to make a call, similarly, if one feels that he/she is lacking in 'Sumiran' then one should sit with family members for 'Sumiran'. Don't think that you were not told that earlier. In fact, it was not told but one should remain consciously aware about paying attention to 'Sumiran' in any way so that our faith should remain firm and unwavering. God remembrance leads to large heartedness as well as broad-mindedness that saves us from unnecessary complications. 'Sumiran' opens the door to progress.

## ABHILASHI UNIVERSITY - AN INTRODUCTION

Abhilashi University at ChailChowk, Mandi is established by the Government of Himachal Pradesh vide “Abhilashi University (Establishment & Regulation) Act, 2014”. Abhilashi University is a Government recognized University with a right to confer degrees as per Section 2(f) and 22(1) of the UGC Act, 1956. The campus of the University is located at ChailChowk near Mandi (H.P.) and surrounded by lush green fields, pine and oak forests thus becomes an ideal place for study in a clean health-oriented environment. The aforesaid was the forethought for the Abhilashi Educational Society selecting such a beautiful location for the University. There are a number of places worth visiting nearby the University such as Nachan Valley, Jecuni Valley, Janjehli Valley, Balh Valley, Sundernagar and Mandi towns. One can also enjoy snowfall once a while during the winter season. The fresh and pollution free air of this region keeps the minds of the students fresh and help them to concentrate on their studies and beat the crowd.

The management of the University, Abhilashi Educational Society, is a pioneer in managing private educational institutions in the state of Himachal Pradesh. The foundation stone of the Society governed by Late Sh. Tulsi Ram Abhilashi Ji on May 21, 2001.

The students and their parents have put faith in the quality education imparted by efficient and dedicated faculty of institutions managed by Abhilashi Educational Society for the last 19 years. The Society is presently running many educational institutions of basic and technical education in the region. It includes: Abhilashi College of Education at Nerchowk, Mandi established in 2003 and running D.El.Ed and B.Ed., Abhilashi College of Pharmacy, Nerchowk, Tehsil Balh, Distt. Mandi from 2006 onwards and admitting students for B. Pharmacy Degree Programme; Abhilashi P.G. Institute of Sciences at Nerchowk, Tehsil Balh, Distt. Mandi offering M.Sc. Courses in Physics, Chemistry and Botany, T.R. Abhilashi Memorial Institute of Engineering and Technology (TRAMIET) established in 2009 by imparting education in the B. Tech. and Diploma programme in different disciplines of engineering and technology. Abhilashi College of Nursing at Tanda, P.O. Balt, Distt Mandi is imparting education in B.Sc. Nursing, GNM, ANM and Post-Basic B.Sc. Nursing courses.

### Vision

Excellence in professional and technical education through dedication and innovative research.

### Our Mission

- To provide environment for achieving excellence in education.
- To create and generate conditions for quality education.
- To impart quality education through value-based & industry-based curriculum.
- To strengthen in humanistic, social and moral values.
- To plant education and qualities of leadership in minds of students for future development of the nation.

## From Chancellor's Desk

---

Education is the driving force for effecting change in a person, community, society, and nation. It breaks the barriers of caste, creed, ethnicity and religion by training the minds to think logically; envision, innovate, invent and discover methods for creating a harmonious and sustainable society with skills, positive mindset, knowledge and high values of life. Education being so important, therefore, the mission of the Abhilashi University is "To provide environment for achieving excellence in education through leadership-based, value- based & industry-based curriculum for the overall development of the minds of students for the future development of the nation in turn".

For any University, the structure of excellence lies in the transitional ability of its faculty and its facility. I am always in awe of the efforts that our academic board puts into developing the team of subject matter expert at Abhilashi University. My faculty colleagues understand our core vision of empowering our future generation to be ethically, morally and intellectual elite. They practice the art of teaching with a student centered and transformational approach. The excellent infrastructure at the University both educational and extracurricular, magnificently demonstrates the importance of ambience in facilitating focused learning for our students

The Abhilashi University is one of leading Universities of north India which has been successfully approved by the 1st Inspection Committee of the University Grants Commission within two years of its inception. Further, the University has the approval of University Grants Commission under section 2(f) and Section 22 of UGC Act, 1956 and a member of AIU (Association of Indian Universities), Central Council of Indian Medicine, Pharmacy Council of India, Bar Council of India, Himachal Pradesh Para Veterinary Council and Indian Association of Physiotherapists.

It is my pleasure to extend warm welcome to all the prospective and aspiring students of Abhilashi University and other Institutions of Abhilashi Group and I honestly assure them that they will shine in their career, beat the crowd of this competitive world and realize their cherished missions after completing their education from our University and other Institutions of higher learning.

## From Pro-Chancellor's Desk

The fast changing world of tomorrow will be an existing and a challenging place to live, where only people who adopt themselves to the situation, keep face with upcoming technologies and take the ability to align their ideas, thoughts and way of working to changing situation will survive. At Abhilashi university we recognize this need to prepare the students for the challenges of the 21st century and to provide an atmosphere which will encourage them to become lifelong learners and to work in multi cultural, ever changing society.

As education and knowledge are of paramount significance for the different sections of the society, therefore, the Abhilashi Educational Society has developed a hub of educational institutions in and around the Nerchowk town of Mandi District (H.P.). Majority of the institutions are situated in the rural area so that the students can get a serene, calm, pollution-free academic environment for concentrating in their studies, innovating and becoming an asset to the society. The other reason for situating and developing the educational institutions in the rural area, is the pious mission of the Abhilashi Educational Society to improve the quality of life of the rural people by education, employment and other means of entrepreneurship such as opening hostels, paying guest houses, grocery shops, tea shops and other means of livelihood possible at their thresholds.

The vision of the Abhilashi University is "Excellence in professional and technical education through dedication and innovative research". Thus to achieve this mission, the University has adopted a very high standard of education which gets reflected through the recognition of the University by the University Grant Commission Inspection Committee and AICTE Expert Committee and the ratification of the same by the UGC within a period of two years of the establishment of the University. Further, the standard of the University has also been applauded by the other bodies such as PCI, BCI, CCIM and H.P. State Para Veterinary Council.

It is my pleasure to extend warm welcome to all the prospective and aspiring students of Abhilashi University and other Institutions of Abhilashi Group and I honestly assure them that they shall shine in their career and beat the crowd of this competitive world.

Vice-Chancellor

Higher education is considered as a vehicle of social, economic, political, cultural transformation and growth & development. Education which one receives after 12th standard in colleges, universities, institutes and deemed universities is higher education that includes diploma, undergraduate, postgraduate and doctoral degree study programmes. The 21 century is going to be the knowledge century and economic growth will be linked with human resources, development, gross enrolment ratio in higher education which is important indicator of development. Further, there are vast discrepancies in this regard amongst women, SC, ST, rural and urban populations. This is a challenge as well as opportunity to establish educational institutions especially in the private sector to provide and improve higher education system in India. The large population (15-24 years) in India are prospective entrants in higher education. The number of institutions required to achieve GER 30 % or above in higher education has to be increased tremendously and government alone cannot achieve this task and thus the private sector has a big role to play. Universities which have adequate infrastructure for teaching and research, well qualified and innovative faculty, academic and industrial collaborations at national and global level will be in demand. Active dialogue among academia, industry, government and all stakeholders is inevitable to address the challenges in higher education and grab the opportunities to make our country a knowledge hub or power in the world. Abhilashi University is an attempt in this direction which was established in 2014 and duly approved by UGC. University is located In Himachal Pradesh within North-west Himalayan region. The end product of education at Abhilashi university create and train human resource to protect the interest of man and nature we inspire and ignite mind of graduate, post graduate and scholar of eminence to fuel unprecedented growth & development to wipe out poverty, hunger, disease, unemployment, enormous pollution and advance the frontiers of knowledge, shrink the boundaries of ignorance and ensure happiness all around. The University has excellent auditorium, conference halls, lecture halls, laboratories, seminar halls, tutorial rooms, computer labs, play grounds, hostels and well equipped hospital of Abhilashi Ayurvedic College & Research Institute with highly professionally qualified team of doctors, faculty members and supporting staff. The University has fully Wi-Fi campus. Therefore, to ensure better career and bright future with appropriate placement, I welcome the students, parents and new entrants for their choice and association with Abhilashi University.

## Message from the Desk of Registrar

**“Somewhere, something incredible is waiting to be known.”**

**-Carl Sagan**

I came across this amazing quote quite suddenly when I was looking for some information in the internet and realized how relevant it is for all of us: children, parents and teachers. There is never any point in the life of a person when he can sit back and say. *“There is nothing more to learn, I can relax with the comforting thought that the universe around me is an open book. I know it all.”*

Education is not just about the subjects that are learnt and taught in educational institutions. Becoming educated is not restricted to being initially in school and then in college, gathering certificates and feeling proud of oneself. It is a lifelong exercise that can be unbelievably exciting if only we wish to jump onto the train of experience and take a trip to every conceivable place on the earth. Now we know that this cannot be done literally, so how do we manage it, first in school/college life and then as we go on through the journey of life?

First, we all have to be on the same page: children, teachers and parents have to understand that education is not restricted to lessons taught in the classroom from text books. Parents and teachers must encourage students to ask as many questions as they can. For it is in wanting to know that will result in actually getting to know.

The thirst for knowledge is not restricted to the student only but it is also essential for a parent and a teacher to keep adding to their own knowledge bank by keeping their eyes and ears open and by reading as much as possible and ensuring that children develop these habits as well. As Isaac Asimov said;

*“I received the fundamentals of my education in school, but that was not enough. My real education, the superstructure, the details, the true architecture, I got out of the public library. For an impoverished child whose family could not afford to buy books, the library was the open door to wonder and achievements, and I can never be sufficiently grateful that I had the wit to charge through that and make the most of it.”*

Besides all of the above, that add to children becoming truly educated, educational institutions and teachers must ensure that children have a society of enriching experiences. Surprisingly, these experiences develop a child's creativity and imagination and lead to something that is often thought to be more important than knowledge. Creativity and imagination make children grow up to be productive adults who then arrive as citizens of the world ready to make their own great contribution to mankind.

I welcome you to the **Abhilashi University**, an institution where we help you to shape your future and help you in achieving the destination of the life which you want to achieve. I assure you that at Abhilashi University we will not leave any stone un-turned in making your dream come true. At last I will like to add a few words of Albert Einstein-

*“Imagination is more important than knowledge. For knowledge is limited to all we now know and understand, while imagination embraces the entire world, and all there ever will be to know and understand.”*

## School of Agriculture

**Dr. S.S. Masand**  
Dean, Agriculture & Science

Professor S. S. Masand has served CSKHPKV, Palampur (H.P.) for more than 35 years and retired from the post of Principal Scientist in 2008. During his tenure of service, Prof. Masand has gained wide experience in teaching, research and extension in the field of agriculture. Since 2014, he has been serving Abhilashi University as professor of Soil Science. Currently Prof. Masand is the Dean, Faculty of Science, Abhilashi University, Chail-Chowk (Mandi).

In agriculture, there is a wide scope for youth to experience plenty of opportunities in public sector, rural sector, farming, consultancy and advisory roles in business firms in private and public sectors etc. The agriculture courses have immense opportunities under the 'Start up Scheme' launched up by Hon' ble Prime minister of India. Therefore, we welcome large number of youth to opt graduation courses in agriculture at Abhilashi University.

Agriculture is the science and art of cultivating plants and live stock for economic purposes. It plays an important role in the life of mankind from early civilization. It was the key development in the rise of sedentary human civilization, whereby farming of domesticated species created food surpluses that nurtured the development of civilization. It gains modernization with the passage of time. Modern Agricultural practices are increasingly turning out to be knowledge based and hence gaining expertise in them is exceedingly important. Industrial agriculture based on large-scale monoculture farming has now become the dominant agricultural methodology.

India does require agricultural education at all levels so that Indian farmers are better equipped to handle the threats of globalization. There is yearly hike in the budget of agriculture sector in India. However, with the entry of foreign direct investment (FDI) in the agriculture sector, many MNC's have forayed into the segment with dozens of agro-products; subsequently this has resulted as a threat to Indian farmers who lack professional expertise to better deal with the issue. Hence the need of the hour is to give agricultural education a high priority. India is yet to emerge as a significant trade partner in the world agriculture market. There are exciting opportunities for youth in agriculture and many graduates in rural sectors follow career in farming, the management of agriculture and other rural businesses, consultancy and advisory roles to business firms in private or public sectors. There are also significant career opportunities in the area of food production and supply management including consumer research through manufacturing, distribution and the industries supporting agriculture and horticulture. The agriculture courses have immense opportunities under the "Startup Scheme" launched up by Hon'ble Prime minister of India.

School of Agriculture has been established in Abhilashi University under Faculty of Science in 2014. This school is offering B.Sc. (Hons.) Agriculture (4-year course spread over 8 semesters) with an intake capacity of 120 students. Under the co-education system, the students are admitted to the course after an entrance test conducted by the university.

After going through common and elective courses in Agriculture, Animal Husbandry and Basic Sciences during the degree programme, we have in the course curriculum a six week exposure of the students in complete rural settings where the students will go and live along with farm families in the villages and have the first-hand experience of their living, agricultural practices, difficulties and expectations. Students will be attached to an agriculture based industry in order to acquaint themselves with post-harvest processing of agriculture produce and link agriculture production with industry.

The school has highly qualified teachers, well equipped laboratories, class rooms and well laid out terraced student's farm representing typical hilly terrain. Occasional snowfall during the winter adds to the beauty of the university campus and places it at a location which is marginal to temperate as well as sub-tropical agro climatic conditions, thus enabling teaching and research under both the situations.

The practicals of the students training are backed by thorough field training and exposure at farmer's fields. The students are encouraged to participate in co-Curricular activities, sports events and other cultural activities of local and national/international significance. The exposure of students is also backed by educational tour to different parts of the country.

A group of 3-4 students is allotted a piece of land where they are required to raise the seasonal field and vegetable crops. The inputs are provided by the University and the students are required to raise the crops under the guidance of respective teachers. They are evaluated on the basis of field record and stand of crops. This provides them a good practical exposure.

# Faculty of Pharmacy

## School of Pharmacy

Prof.(Dr.) Amit Chaudhary has a commendable track record in academics. He also served as Director & Dean in various known colleges and universities. He has actively engaged for a long period in teaching and administration.

**Prof.(Dr.) Amit Chaudhary**  
Dean, School of Pharmacy

He has published various research papers in reputed national & international journals. He has many years of exposure in research & development. He gives an enormous weight age to both theoretical & practical aspect of teaching courses as stipulated in the curriculum of D.Pharm, B.Pharm, M.Pharm and Ph.D programmes of P.C.I and UGC.

I am pleased to present before you the information brochure of the School of Pharmacy, Abhilashi University, Himachal Pradesh. The school of pharmacy started in 2014 with Bachelor of Pharmacy Courses is now turning out high quality D. Pharm, B. Pharm, Pharmacy Practice, M. Pharm, Ph.D students. The school of pharmacy has dedicated, highly qualified, experienced and efficient faculty to guide students and to impart quality education, and has also excellent Laboratories with State-of-art equipment's and machinery as per the norms of PCI and UGC New Delhi. The school of pharmacy provides very rich knowledge platform for our students to develop overall personality and self-confidence. The University Campus is totally free from ragging and un-ethical practices.

The quality processes have been highly appreciated by various regulatory bodies including the Pharmacy Council of India (PCI) and UGC. In a short span, our campus has made significant progress in the field of technical education, research and development. This has been achieved by outstanding student participation in various activities ably supported by highly qualified and motivated faculty, a world-class infrastructure and virtual learning system - Blackboard available at the campus, 24 X 7 access to e-library and scientific wealth through Wi-Fi. Credit goes to our beloved Chancellor sir Dr. R. K Abhilashi and his team who made it possible. Residential campus gives us flexibility to groom disciplined future professionals, nurturing their life values and hidden talents and strengthening their inherent good qualities. This includes co-curricular and extracurricular activities round the year. Sports also has its own place in the campus life of students with well-maintained courts, facilities and professional coaches. Soft skills & communication skills are the integral parts of the curriculum. We believe in the holistic development of our students. Our alumni are well placed, accomplished professionals, affectionate about their Alma Mater, and always been a part of Campus's exaltation. We whole heartily welcome to our new students in coming academic year for the seat of learning.

School of Pharmacy is approved by PCI. Pharmacy is the science and technique of preparing and dispensing medicines. It is a health profession that links health Sciences with chemical and biological sciences and aims to ensure the safe and effective use of medicines. The scope of pharmacy profession includes more traditional Roles such as compounding and dispensing medicines to health care and clinical services, reviewing medications for safety and efficacy and providing drug Information. Pharmacists are experts on drug therapy and are primary health care professionals who optimize use of medication for the benefit of patients and society. The teaching and learning process at Abhilashi University is designed to produce right combination of skills, knowledge and attitude.
