EDITORIAL

The editorial team of Abhilashi University News letter pleased to present this News letter comprising the activities in Abhilashi University from Jan, 2019 to March, 2019.

Award for Best Pharmacy Institute of the Year (2019)

Dr. Amit Chaudhary received best pharmacy institute of the year 2019 award for School of pharmacy, Abhilashi university by Maharashtra Govt. on 8th Annual International conference & exhibition (SPER 2019) held at Wardha, Maharashtra on 22-23/Feb/2019 in the presence and witnessed by minister of state for home Dr. Ranjeet Patil.

Campus Placement Drive/ Interview:

School of Pharmacy Abhilashi University, Chail- Chowk, Mandi organized placement drive on dated 03 March 2019. Delegates Mr. Baldev Tahkur GM-HR and Mr. Nagender Pratap Singh Manger-Production came from Macloids Pharmaceutical, Baddi, Solan. Dr. Amit Chaudhary, Dean well the delegates. Mr. Abhishek Soni (Asst Prof Cum Placement officer) coordinates for the placement drive.

Mr. Baldev Thakur GM-HR gave presentation on company introduction. He discussed about production department i.e. the production department is responsible for converting raw materials and other inputs into finished goods or services. In between the processes of production, the department works to improve the efficiency of the production or assembly line so that it can meet the output targets set by company management and ensures finished products offer consumers the best value and quality.

The main role of production is to turn inputs (raw materials) into outputs (finished goods). Outputs refer to a finished product or service and inputs are the materials that are needed to manufacture certain goods. When a business completes this process they are able to achieve customer satisfaction by producing products that are ready to be used and fit for purpose. The production department is responsible for ensuring quality is achieved in each item produced. They will need to carry out inspections and implement suitable quality initiatives. This is one of the major duties of this department because if mistakes are made on products, customer satisfaction will be decreased or if products are ruined during the production process it means that the company will have to throw "bad" products away (creating waste). Both aspects will lead the company to a loss of profit. Quality assurance is a good practice in the manufacture of pharmaceutical products, as it is the process of vouching for integrity of products to meet the standard for the proposed use. This may be helpful to appreciate the role of quality assurance as including preparation of data for the Qualified Person for the purpose of batch release and certification. In this case, the quality assurance organization would then take up the task of generating portions of batch-related data to ensure they are available through appropriate reporting systems as well as parallel so as to guarantee the functionality of standard quality systems. This department is responsibility for to establish the quality system, audit compliance to the quality system, procedures, specifications, manufacturing controls, describe responsibilities in writing, to remain independent etc. He discussed about research and development department. It refers to innovative activities undertaken by corporations or governments in developing new services or products, or improving existing services or products. Research and development constitutes the first stage of development of a potential new service or the production process. R&D activities must be closely coordinated with the organisation's marketing activities to ensure that the organisation is providing exactly what its customers want in the most efficient, effective and economical way. He also said that, Macleods offers dispersible, bi-layered, coated, uncoated, and enteric coated tablets; hard and soft gelatin capsules; dry powder injections and syrups; and granules and liquid orals.

The company provides products in various therapeutic groups, such as anti-infective, cardiovascular, CNS, respiratory inhalation, dermatology, oncology, and orthopedics; and anti-TB, asthma and COPD, anti bacterial, NSAIDS, malaria, HIV, anti-arthritic, anti-osteoporotic, gastroenterology, gynecology, diabetology, and CVS. At last he discussed about all their company products and their benefits for society. So, they serve the society by their good production. They also told their future target of the company by their production. Our Sixteen students participated in placement drive in which eight students (Ms.Ojasvi Gupta, Mr.Priyesh, Mr. Tarachand, Mr.Vivek, Mr.Gourav, Mr. Surender, Mr. Puneet Kashyap, Mr. Pankaj) selected by Macload Pharmaceutiocl Pvt. Ltd Baddi Solan

Outcome Based Education Guest Lecture

Teaching /non-teaching and students of school of pharmacy attended guest lecture delivered by Dr.Bhupendra Singh Tomar on the topic "Importance of Pharma innovations & scientific conference" at Multipurpose hall of university on 14th March, 2019

Report on National Science Day Celebration 2019

In order to commemorate the discovery of the Raman Effect in India by the Indian physicist, Sir Chandrasekhara Venkata Raman in the year 1930, the day is celebrated as National Science Day. For his great success in the field of science in India, Chandrasekhara Venkata Raman had been awarded and honored with the Nobel Prize in the Physics in the year 1930. To honor this event, 28th of February is observed as a National Science Day in India by the National Council for Science and Technology Communication (NCSTC). A particular theme is selected for every year National Science Day Celebration. The theme of this year was "Science for the People and the People for Science". National Science Day was celebrated at Abhilashi University, Chail Chowk Mandi (HP) on 28th February 2019. The session was open by lighting of lamps followed by respected Dean School of Pharmacy Dr. Amit Chaudhary.

Dr. Amit Chaudhary, Dean School of Pharmacy in his welcome address briefed the gathering about the objectives of celebrating National Science Day. He discussed how the contribution of Science for the People and the People for Science in our day-to-day activities and made our life much easier.

On this occasion, a motivational and inspirational talk was delivered by the eminent speakers Mr. Abhishek Soni (Asst. Prof.) from Abhilashi University, Chail Chowk Mandi (HP).

Mr. Abhishek Soni during his keynote address laid emphasis on the nuances of Nano Science, material science, and molecular biology and explained if determination and enthusiasm is strong then nothing can stop us from achieving success in life, not even physical disabilities while referring the especially abled scientist like Prof. Stephen Hawking.

He also stressed on the importance of discovery made by Sir Chandrasekhara Venkata Raman which we know as Raman Effect and its application in many scientific instruments and clinical diagnosis. Furthermore, he strongly recommended the students of Abhilashi University to remain curious and become good observers of daily natural and scientific phenomenon.

Ms. Bhimi (Asst. Prof) in his address threw light on the synthezation of molecular and organic compounds and the role they play in the routine life of a common man. She explained how a creative thinking and observation can lead to win a scientific outlook. She expressed her views on how we should never fear to follow our dreams and never stop questioning.

Ms Chinu Kumari, Asst. Prof. of Abhilashi University in his presidential remarks appreciated the faculty members of various departments for organizing National Science Day and students for their participation in large number. She also praised the efforts of faculty members for taking up various projects for the promotion of research in the newly established departments.

Session was then open for scientific activities after lunch. Various events includes oral presentation, poster presentation, quiz, and model were presented by the students.

Around 60 students participated in various activities.

The winners of the competitions were as follows:

1. Oral Presentation:

Ojasvi Gupta, from B Pharmacy 4th year/8th sem, Anchal Verma from 1st year/ 2nd sem and Ankush 3rd year/6th sem won the first, second and third prize respectively in the oral presentation category.

2. Poster Presentation:

In this category first prize won by Anisha rai 2nd year/4th sem. Second and third prize won by Ashita Chettri 4th year/8th sem, Shavendu Gupta 3rd year/6th sem

3. Quiz:

First prize won by Surender and hemant from 4th year/8th sem. Second and third prize won by Uma Bharti and Ujjwal from 1st year/ 2nd sem, Dipika and amisha from 2nd year/ 4th sem.

4. Model Making:

Under this category first prize won by Arun Naik, Ankit and Dinesh Naik from 3rd year/6th sem. Shanti, Sajjan and Smrittee from 4th year/8th sem won second prize. Pankaj, Akshay kumar and Jyoti Verma from 1st year/ 2nd sem won third prize.

Mr. Chirag Kapoor, Associate Professor of Abhilashi University presented formal vote of thanks. The function was commenced at 5:30 pm with the gracious presence of Dr. Amit Chaudhary, Dean School of Pharmacy of Abhilashi University. later on Dr. Chaudhary distributed the cash prizes and certificates to all the winners of the various competitions and participation certificates to all the participants.

ENGINEERING AND MANAGEMENT

1. Ongoing research project

Impact of ions radiation on silicon carbide based High- K MOS devices.

Approved: Nov12, 2018

Funded By: Science and Engineering Research Board (SERB)

Research grant: 15 lacks (7.5 Abhilashi University & 7.5 IIT Mandi)

PI: Dr. Vikram Singh

2. SEMINAR

Department: Engineering and Management

Topic: Earthquake Resistance Design.

By: Er. Abhay Dhiman (Asstt. Prof. Civil engineering)

Dated: March28, 2019

The Department had organized seminar on Earthquake resistant designs which was given by Er. Abhay Dhiman. In the seminar the topics discussed very broadly about the new technologies currently being used in Earthquake resisting buildings. Students of Engineering were also present in the seminar and also involved in healthy discussions.

Faculty present in seminar:

Dr. Vikram Singh Tomar, Dr. Jatinder kaur, Dr. Om Prakash, Er. Vanika, Er. Chaman Lal, Er. Bhaskar Dhiman, Er. Ajay Kumar, Er. Abhishek, Er. Manoj Kumar, Er. Virender Chaudhary, Dr. Jyoti sondhi Mr. Hemant Kapoor

- To enhance managerial skill of the students, various co-curricular activities like extempore, Group discussions, seminars and management quizzes were organized by the department.
- Students of the outgoing batch got placed in the firms of international repute:

School of Agriculture

A seminar has been delivered by Dr. Ajay Kumar Gautam, Director Research, Abhilashi University on dated 18th February 2019 on the topic "Role of research in teaching and learning". As per Dr. A.K. Gautam, the broad idea behind doing research in higher educational institutions is to produce new knowledge, practice, learning and exposure. Research enables the teachers to use current updated knowledge in classroom teaching. Involvement of research finding of respective subjects of teachers during teaching can motivate students and also create interest for that subject. It builds up and improves the confidence of both teachers and taught. Besides these, research improves their academic and professional career. Additionally, the research output of an institution helps to bring up its overall rating, ranking among other organizations. The national and international agencies have allotted special weightage to research activities and fixed separate points during inspections and evaluations by various committees.

Two students Ms. Versha and Ms. Poonam, B.Sc. (Hons.) Agriculture 8th Semester has participated in 2nd International conference on Food security, Nutrition and Sustainable Emerging Technologies jointly organized by Baba Farid College Bhatinda and Indian Institute of Food Processing Technology (sponsored by Ministry of Food processing, Industries, Government of India) in collaboration with Society of Pharmacology and Phytochemistry from February 14-16, 2019. Oral presentations on the topic “Organic Farming” and “Zero budget natural farming” were presented by these students. In their presentations they discussed in details about beneficial impacts of organic farming and zero natural farming on mankind and society.

Mr. Anuj Kumar, Assistant Professor in Agriculture Economics, School of Agriculture has participated and presented a paper in 4th International Group Meeting (IGM) held in CSKHPKV Palampur on 14-16 February 2019. Mr. Kumar delivered his oral presentation on the topic “Carbon sequestration through agroforestry and its impact on adoption and sustainable farming”.

Dr. Akhilesh Kumar, Assistant Professor in Biotechnology, School of Agriculture has participated in a workshop on “Bioinformatics Tools and its Applications in Agriculture” (Sponsored by the Department of Biotechnology, Govt. of India) which was organized by Department of Agricultural Biotechnology, CSKHPKV, Palampur w.e.f. (Feb 26-March 01), 2019. In addition to hands-on training, it was intellectually enriching experience especially from the point of view of interacting and information sharing with the peers.

To aware the farmers of Balh Valley, District Mandi, plant clinics were organized by School of Agriculture, Abhilashi University time to time.

2019/2/15 14:08

Medical Health Camp organized and Health Check-Up in selected village by the team of doctors of Abhilashi Ayurvedic College and Research Institute of Abhilashi University

The overall progress was recorded by the team leader Dr. Baldev Singh. Ayurveda Hospital and Research Institute of Abhilashi University.

Donate Blood Save Life

BLOOD DONATION CAMP

"Give blood, save life" with this beautiful thought, Abhilashi University and Sant Nirankari Branch organize Blood Donation Camp under the aegis of district Red Cross Society Mandi H.P. inauguration by Rev. Raj Kumari ji (Mamaji) member incharge Prachar Vibhag Nirankari Mission on 7th March-2019 at 11:00 a.m and 176 cases done in the camp. volunteers including students and staff members donated blood, along with blood donation, words were exchanged by Honble Chief Guest on spiritualism she said that in the auditorium of the University.

Devotion is not a means to know God, but having known Him, it is a way of life for the devotee ever expressing his heart felt gratitude for His bounties. Such a devotion is not subjected to the limitations of rituals, time or place. Knowledge of God is not the end, but the beginning of devotion.

A true disciple sees the Divine in all, and so is ever in Satsang. His every action is dedicated to the Divine, turning it into Sewa. And he lives in a state of constant awareness of Nirankar, making his every breath a Simran. Bliss and Joy, that emerges out of experiencing GOD, manifests in form of staying with enlightened ones, serving all and remembering the Self.
